

## Social Report 2020

As social events around the globe were being cancelled, our Clubhouse remained shut in line with Government Regulations.

The coffee machine was re-sited to allow members to at least be able to buy a coffee from outside the clubhouse, albeit through the open window!

Two marquees were erected, enabling members to sit (socially distanced of course!) and shelter from the ever-changing elements be it rain or sun whilst they were at the Club enjoying a game of tennis or croquet.

This year is looking more hopeful, and we all look forward to being back in the clubhouse enjoying ourselves as soon as the guidelines are clear that Clubhouses can be open for business.
